INTERESTS

Health & Fitness, Exploring New Technologies, Continuous Learning

PROJECTS

AI Resume Scanner (Jul 2025)

- Developed a Python-based web application where users upload resumes and job descriptions.
 - Implemented NLP to analyze both documents and provide a match score with skill/keyword insights.
- GitHub: <https://github.com/akhilan77/ai-resume-scanner>

ASCE Gym - Fullstack Web Platform (Jun 2025)

- Built a responsive fitness and wellness web platform with full-stack functionality.
 - Frontend: React.js, Axios, React Router; Backend: Secure integrations for user registration, content delivery, and payments.
- GitHub: <https://github.com/akhilan77/asce-gym>

MyAlgo - DSA Practice Programs (Jun 2025)

- Created C programming practice tools for Data Structures & Algorithms.
 - Supports structured learning and algorithmic proficiency.
- GitHub: <https://github.com/akhilan77?tab=repositories>
